PROFESSIONAL BACKGROUND

Web Developer

Smiths News Ltd

Mar 2017 – Ongoing

Swindon (UK)

- Fully implemented the UI of an internal portal used by all 39 DC's within Smiths News on a daily basis, enabling better delivery planning.
- Created a parcel delivery tracking portal for Pass My Parcel with built-in automatically scheduled reminders and updates.
- Saved around £20,000 for the company on third-party development.
- Maintenance of approx. 20 websites in Drupal.

Software Developer

3iIIs Ltd

Sept 2015 – Jan 2017

Swindon (UK)

- Designed and created an employee platform customised by user permissions, which gives control to HR managers, provides transparency, and reduces communication response time.
- As a result of my interactive Uniform Order application, mobilisation timeframes are reduced by 2 days on average.
- Contributed to several ongoing projects as part of the team through consultations, debugging and testing, such as online Application Form & Screening System, Employee Helpdesk, and Manpower Scheduling Portal.

Software Programmer, Junior Consultant & Web Designer

Ragusa Telekom

May 2014 – Sept 2015

Dubrovnik

- The combination of my creativity, customer orientation, and planning resulted in the implementation of well-structured and easy-to-use interfaces.
- Learned and developed a recognised ERP system (HansaWorld) by integrating customer specific modules, as well as improved software quality by discovering & fixing hidden bugs.
- Led a team of 3 as a primary consultant, resulting in the increased number of positive feedbacks, and higher customer satisfaction.

Graphics and Web Designer

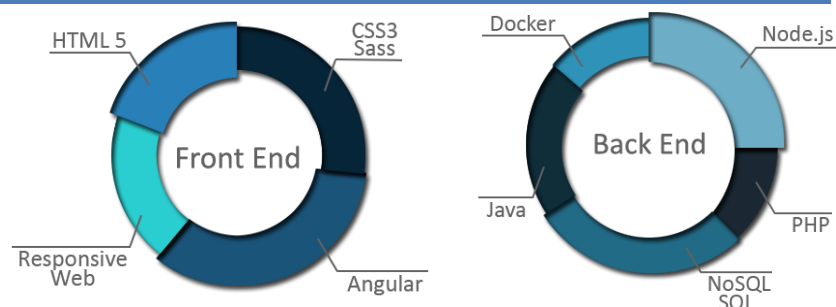

Studio Beluga

Jun 2012 – Aug 2013

Dubrovnik

- Introduced new styling methods and graphical elements in web design, replaced old templates, and built customised, user friendly & easy-to-maintain web sites from scratch.
- Delivered numerous web pages with 100% customer satisfaction.
