PROFESSIONAL BACKGROUND

Senior Software Developer, Research Lead

Ntegra Limited   📅 Apr 2019 – Present   📍 Swindon (UK)

- Developed **sales management platform**s for two of our clients.
- Connected over 8000 employees of our client (Wavemaker) globally by implementing a **network discovery tool** powered by relevance score, and Teams integration. A single access repository portal with **knowledge search and chatbot** functions.
- Researched and championed **Test-driven development** best practices.
- Completed **penetration and security testing** as well as code reviews.

Software Engineer

SMS Environmental Ltd   📅 Jan 2019 – Apr 2019   📍 Didcot (UK)

- **Lead developer** of a water treatment portal ensuring compliance with relevant regulations. Achieved better platform performance through reusable components across the whole project.
- Implemented a **new automation process** reducing time required to deliver client specific requirement from 6-7 to 2 weeks.

Web Developer

Smiths News Ltd   📅 Mar 2017 – Jan 2019   📍 Swindon (UK)

- **Fully implemented** the **UI** of an internal portal **used by all 39 DC's** within Smiths News **on a daily basis**, enabling better delivery planning.
- Created a **parcel delivery tracking portal** for Pass My Parcel with built-in automatically scheduled reminders and updates.
- **Saved** around **£20,000 for the company** on third-party development.

Software Developer

3IIIs Ltd   📅 Sept 2015 – Jan 2017   📍 Swindon (UK)

- Designed and created an **employee platform** customised by user permissions, which gives **control** to HR managers, provides **transparency**, and reduces communication response time.
- As a result of my **interactive** Uniform Order **application**, mobilisation timeframes are reduced by 2 days on average.
- Contributed to several ongoing projects as part of the **team** through **consultations, debugging** and **testing**, such as online Application Form & Screening System, Employee Helpdesk, Manpower Scheduling Portal.

Software Programmer, Junior Consultant & Web Designer

Ragusa Telekom   📅 May 2014 – Sept 2015   📍 Dubrovnik

- Implemented **well-structured** and **easy-to-use interfaces**.
- Integrated customer specific modules into **ERP system** HansaWorld, and **improved software quality** by discovering & fixing hidden bugs.
